

THE
Winery

Our wine list is devoted to the people and places that make tasty wines from grapes you may not have heard of, whilst not forgetting the wines from regions and varieties that are as familiar as old friends.

Remember wine is a good drink, often a great drink, but it's the food, people and places that go with it that make it special.

Blast from the Past

- Skin contact Whites -

Long time ago in a country far, far away...

..they were already making wine in Georgia 8000 years ago. It differed from the current white winemaking in a way that the juice from both white and red grapes were left in contact with the grape skins. As a result, the white wine had a varying shade of orange or pink depending on the grape variety.

Below you can find the modern examples of this style.
