

THE *Winery*

Our wine list is devoted to the people and places that make tasty wines from grapes you may not have heard of, whilst not forgetting the wines from regions and varieties that are as familiar as old friends.

Remember, wine is a good drink, often a great drink, but... it's the food, people and places that go with it that make it special.

MINIMAL INTERVENTION

These wine makers have a sustainable approach when it comes to their agricultural and wine making procedures. Some organic certified, biodynamic and some promote land rejuvenation and longevity. Many of our famous new and old vineyards practice these methods because natural is better but honestly, they make a bloody delicious drop. Natural style wines are easily undetected in a blind test so... Ask your bartender or waiter for a taste and challenge your palate!

VEGAN

These wines promote animal free cruelty and product free wines!

SUPPORTING SMALL BUSINESSES

These wines come from small and independently owned wineries. This allows winemakers to pioneer their own wine making techniques and support their local growers and families. We love an underdog so... support the local (and not so local) communities around the world.

SKIN CONTACT WHITES

Imagine sitting in the sun... in one hand, a ripe nectarine and in the other...a glass of fresh zesty home made lemonade. Skin contact, or orange wine, is an ancient winemaking technique that allows white wine grape flesh to sit on their skins, inducing tannins and other characteristics normally only found in red wine. Well, as your mother keeps on saying... fashion always comes full circle and this 8000 year old tradition from Georgia is back. Ask for a taste, you know mum is always right.
